

ARtuff® Wear-Resistant Ceramics

Advanced Ceramic Composite Products Designed for Long Life and Wear Resistance

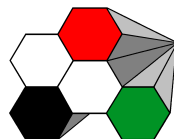

ARtuff® Wear-Resistant Ceramics are composite products made from blends of the finest ceramic powders reinforced with our Silar® Silicon Carbide Whiskers.

ARtuff® ceramic composites are ideal for industrial applications requiring improved wear resistance and extended life.

ARtuff® Ceramic properties include:

- Outstanding wear resistance
- Increased strength, toughness and crack resistance
- Thermal shock resistance
- High-temperature compatibility
- Corrosion resistance

Contact us to learn how ARtuff® Wear-Resistant Ceramics can be used to advance your application.
